

Secure. Efficient. Reliable.

Empower your team to focus on what matters most.

See More, Do More: Optimizing Healthcare Network Performance and Security

In the ever-evolving healthcare landscape, ensuring seamless patient care and safeguarding sensitive data are paramount. However, healthcare IT professionals face a constant struggle: balancing the need for 24/7 network uptime and robust security against ever-growing threats and limited resources. This is where the VIAVI Observer Platform, industry-leading solution for network performance and threat exposure management, steps in.

VIAVI understands the unique challenges you face. From ensuring reliable access to electronic health records to protecting patient privacy, we empower you with the resources and insights you need to:

- **Deliver uninterrupted care:** Ensure 24/7 service assurance to critical systems and data.
- **Fortify data security:** Safeguard patient data with comprehensive monitoring and advanced threat detection.
- **Unleash IT team efficiency:** Automate tasks, streamline operations, and empower your team to focus on high-priority risks.
- **Make data-driven decisions:** Gain actionable insights to help optimize network performance and enhance security posture.

Discover how VIAVI Observer can transform your healthcare IT and empower you to deliver exceptional patient care, securely.

- ✓ End-User Experience
- ✓ Service Assurance
- ✓ Threat Detection
- ✓ Enriched Flow Data
- ✓ High-Fidelity Forensics

CUSTOMER TESTIMONIAL

"From implementation to a fully up and running appliance, this tool really offers a ton of insight into all areas of our IT Infrastructure. The level of analytics and flexibility it has to create custom dashboards for in-house application is as simple as it can be. When we deployed the Observer Apex and set up GigaStor it took us all of 4 hours to start seeing traffic and analyzing it."

- Senior Network Engineer - Healthcare

VIAVI Observer Platform delivers visibility, security, and efficiency to promote exceptional healthcare.

VIAMI Network Performance Management

In healthcare, where every second and precise action is essential, network performance isn't just about IT upkeep—it's the cornerstone of safeguarding patient data, optimizing end-user experience (EUE), and driving efficiency in application uptime. Our unique EUE Scoring converts multiple KPIs into a single simplified metric combined with detailed score deductions that isolate the problem domain(s) and provide the information needed to prioritize remediation. With VIAMI, your network management transcends basic monitoring to ensure unmatched security and efficiency.

With Observer Apex, custom dashboards deliver insights necessary to maintain all critical applications at the highest level, ensuring optimal performance and quick resolution in one place.

VIAMI Threat Exposure Management

In healthcare, where patient confidentiality and regulatory adherence are non-negotiable, Threat Exposure Management (TEM) solutions become indispensable. Our solution extends beyond mere compliance, offering a purpose-built defense mechanism against cyber threats to protect sensitive health information. Observer Sentry empowers your healthcare institution to proactively identify, prioritize, and neutralize vulnerabilities within your AWS cloud environment.

With VIAMI TEM, you can achieve regulatory compliance and a fortified stance against data breaches of sensitive patient data, supporting a commitment to patient trust and operational excellence.

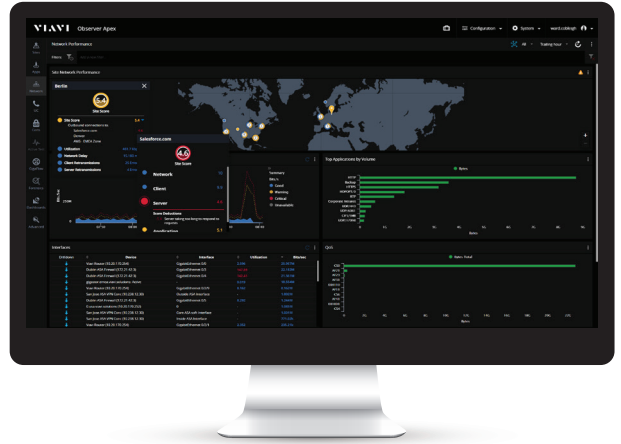

Why VIAMI for Network Performance and Security?

- ✓ **Decades of experience** in application performance triage
- ✓ **Most comprehensive** analysis solution set in the industry
